

Sage 50 Payroll with Automated Payslips*

Taking care of payroll

Are you tired of constant paper jams, or printing and searching for missing payslips? Are employees having trouble accessing their payslips online – or is your manager asking you to look at ways to reduce costs?

We know managing payslips can be both time consuming and a hassle and at Sage we're always looking at ways to help speed up and ease your payroll processes, which is why we have reduced the burden of payslip production to a single click.

New Automated payslips is a brand new module for the latest version of Sage 50 Payroll that enables you to send payslips to employees without having to print, post or email them individually. Simply select whether you want them printed and/or to be accessed securely online and everything else is done for you. It not only works out cheaper, but can help to relieve the payslip stresses that you encounter on a weekly or a monthly basis- allowing you to forget about the manual work and focus on your payroll.

How will you benefit from automated payslips?

- Peace of mind with online payslips hosted securely
- Reduce printing and postage costs
- Reduce your workload from printing and posting payslips
- Allows for seamless integration with your Sage 50 Payroll software
- Be more green by reducing your carbon footprint
- Easily and quickly manage historic payslip queries

How will it benefit employees?

- It's convenient - with 24/7 anywhere/anytime access to their payslips
- They won't need an email address so everyone can benefit
- You can quickly and easily access their historic payslips

Plus, as a Sage 50 Payroll with Automated Payslips customer you will benefit from our special postage rates if you still need to print and post your payslips.

*Additional charges apply. Automated Payslip Module available from 17 November 2014.
