Sage **50 P11D**

Manage your employees' taxable benefits such as company cars and medical insurance, easily and accurately

Sage 50 P11D is simple and easy to use, requiring no in-house expertise. For use for up to 250 employees, it will not only save you time but accurately print and submit your P11D and P11D(b) Forms directly to the HM Revenue & Customs (HMRC).

Sage 50 P11D will help you to:

- Manage your employees' taxable benefits
- Save money and avoid the need for costly in-house tax expertise or Accountants fees
- Reduce paperwork by cutting out complicated manual worksheets
- Stay compliant and use accurate calculations approved by leading tax specialists
- Avoid being fined for inaccurate and or late submissions
- Keep confidential information secure

Sage 50 P11D Professional

Sage P11D Professional is for businesses requiring more than 250 reports with network and multi-user needs. It has the following additional features to Sage 50 P11D:

- Batch Processing - save time by using Batch Entry to add a series of benefits of the same type to a number of employees at the same time
- Benefit Templates - avoid duplication and re-entering of similar data across a number of employees by setting up a benefit template
- Class 1A drilldowns - quickly and easily drill down into entries on the Employer's Declaration, form P11D(b), by benefit type and by employee
- Global PSA Benefits - enter details of any company wide benefits upon which a PAYE Settlement Agreement has been reached
- Audit Trail - track changes made in Sage P11D Professional, itemising each time a user logs in and out and changes made to employees and benefits
- Employee Profiles - You can create a set of default characteristics relating to employees and then apply the profile to selected employees. This automatically populates fields in the employees' records, reducing time spent on data entry
- Enhanced Reporting - using Sage Report Designer, you can customise existing reports and create new reports to suit your own business needs

What does Sage 50 P11D 2011 integrate with?

Sage 50 P11D 2011 will import data from current tax year versions of Sage 50 Payroll 2011.

Important: Sage 50 P11D is not Windows 7 compatible and is not included as a supported operating system on the system requirements.
