

Cloud Services

Get on the Cloud with Reality Solutions

Our cloud services platform is maintained by accredited infrastructure engineers with extensive hosting experience, dedicated to offering you a high performance and reliable cloud solution that can be tailored to your needs.

Why cloud services? This is a question we get asked regularly.

Always available – your information anywhere, anytime

Instant access to a hosted platform via the internet using standard PCs, Apple devices, tablets and smartphones.

Reduce capital expenditure

With no need to buy new PCs, servers or software licence upgrades, you are not continually investing in depreciating assets but can use this money for more strategic investments.

Safe, secure and resilient

Cloud services offer a highly secure service with secure logon using Microsoft Remote Desktop Services protocol encryption, and the ability to restrict a users access to specific files, folders and applications.

Latest technology

With updates scheduled and maintained by our infrastructure team, your IT team will be able to focus on more strategical tasks that can add value to the business.

Centralised data

Instead of having important data spread across multiple computers, it is held centrally in the cloud reducing wasted time in trying to locate important documents.

Cloud Services

Get on the Cloud with Reality Solutions

Flexible working

Studies show that the availability of home working increases staff loyalty, morale and productivity and can help in recruiting from a wider geographical area as daily commuting is eliminated.

Collaborative working

Improve productivity by sharing documents, folders and calendars across your team.

Lower IT operating costs

Less time is spent on managing and maintaining your IT system and you only pay for what you need.

Easier budgeting

Fixed monthly pricing makes costs predictable; manage your IT budget easier.

Reality Solutions Hosted Environments

Hosted Desktop

Freedom. Connectivity. Control.

Reality Solutions hosted desktop gives you the freedom to access your company files, applications and emails, wherever there is an internet connection. Our cloud platform allows multiple users to connect securely from anywhere in the world using all major operating systems.

The cloud platform is scalable and can host the majority of mainstream applications including (but not limited to):

- Microsoft Office
- Sage Applications
- Document Management Systems
- ERP Systems

Providing an extensive cloud platform to businesses large and small, with guaranteed uptimes, service level agreements and support on hand to ensure your business-critical systems are at your fingertips at all times.

Hosted Server

Reality Solutions can also offer a dedicated hosted server for a specific requirement.

Examples include:

- Website/E-commerce hosting
- Application/Database
- Telephony/Software PBX

All hosted servers can be tailored to your needs and by working with third party suppliers we ensure a smooth implementation.
